Common Name: Monoammon	nium Phosphate Formula:	(NH <sub>4</sub> ) H <sub>2</sub> PO <sub>4</sub>	Synonym:	MAP	Uses:	Agricultural

## Section II - Composition / Information On Ingredients

					Exp	oosure Li	mits			
Chemical Name	CAS No.	OSHA	PEL	TLV –	TWA	STI	EL	С	EIL	% by
		mg/m <sup>3</sup>	ppm	mg/m <sup>3</sup>	ppm	mg/m <sup>3</sup>	ppm	mg/m <sup>3</sup>	ppm	Weight
Monoammonium Phosphate, as P <sub>2</sub> O <sub>5</sub> ***	7722-76-1	15/5 *		10/3 **						52
Total Nitrogen, as N ***										11
Fluorides, as F		2.5		2.5						0.6

\* For particulates not otherwise regulated, standard is 15 mg/m<sup>3</sup> total dust and 5 mg/m<sup>3</sup> for respirable fraction. \*\* For particulates (insoluble) not otherwise specified, adopted value is 10mg/m<sup>3</sup> for inhalable fraction and 3 mg/m<sup>3</sup> for respirable fraction.

\*\*\* Product contains monoammonium phosphate as essential ingredient with small amounts of diammonium phosphate, ammonium sulfate, urea, and aluminum/calcium/iron/magnesium phosphate compounds.

Section III – Hazard Identification				
Potential Acute Health Effects:				
Eyes and Skin:	Contact may cause eye irritation	Contact may cause eye irritation and prolonged contact with skin may cause some irritation.		
Inhalation:	High dust concentrations of air-borne material may cause irritation of the nose and upper respiratory tract with symptoms such as sore throat and coughing. Inhalation of decomposition gases can cause irritation and corrosive effects on the respiratory system. Some lung effects may be delayed.			
Ingestion:	Ingestion of small quantities are unlikely to cause toxic effect. Large quantities may give rise to gastro-intestinal disorders.			
Potential Chronic Health Effects:	No adverse effects are known.			
CARCINOGENICITY LISTS	IARC Monograph: No	NTP: No	OSHA: No	

Section IV	Section IV – First Aid Measures			
Eyes:	Immediately flush eyes (holding eyelids apart) with plenty of water for at least 15 minutes. Get medical attention if irritation develops or persists.			
Skin:	Wash skin thoroughly with soap and water.			
Ingestion:	Do not induce vomiting. Drink large amounts of water (or milk if available) to dilute stomach contents. Small quantities are unlikely to cause toxic effect. Get medical attention if a large amount of MAP is ingested (small children, more than 50g).			
Inhalation:	Remove from source of exposure to dusts. Obtain medical attention if the effects occur. Persons who have inhaled decomposition gases (e.g. in a fire) should obtain immediate medical attention.			

Section V – Fire Fighting Measures				
Flash Point:	Non-flammable	Autoignition Temperature:	Not Applicable	
Lower Explosive Limit:	Not Applicable	Upper Explosive Limit:	Not Applicable	
Unusual Fire and Explosion Hazards:	MAP is a non-flammable inorganic salt and is not flammable however when strongly heated, MAP will decompose giving off ammonia.			
Extinguishing Media:	Chemical type foam, CO <sub>2</sub> (Carbon Dioxide), dry chemical, water fog.			
Special Firefighting Procedures and Equipment:	Keep personnel removed from and upwind of fire. Wear full fire-fighting turn-out gear (full Bunker gear) and respiratory protection (SCBA).			

Section VI – A	Accidental Release Measures
Small Spill:	Spillage should be swept up and placed in chemical waste container to be disposed at an appropriate waste disposal facility according to current applicable laws and regulations and product characteristics at time of disposal. Adequate ventilation is required.
Large Spill:	Contain spill and transfer the material to appropriate containers for reclamation or disposal. Dispose of material at an appropriate waste disposal facility according to current applicable laws and regulations and product characteristics at time of disposal. Adequate ventilation is required.
Release Notes:	If spill could potentially enter any waterway, including intermittent dry creeks, contact the local authorities. If in the U.S., contact the US COAST GUARD NATIONAL RESPONSE CENTER toll free number 800-424-8802. In case of accident or road spill notify: CHEMTREC IN USA at 800-424-9300; CANUTEC in Canada at 613-996-6666 CHEMTREC in other countries at (International code)+1-703-527-3887.
Comments:	See Section XIII for disposal information and Section XV for regulatory requirements. Large and small spills may have a broad definition depending on the user's handling system. Therefore, the spill category must be defined at the point of release by technically qualified personnel.

Section VII – Handling and Storage			
Ventilation:	Use with adequate ventilation.		
Handling:	Use appropriate personal protective equipment as specified in Section VIII. Avoid excessive generation of dust and avoid unnecessary exposure to the atmosphere to prevent moisture pick-up.		
Storage:	Store in dry, well ventilated area, away from potential sources of heat and fire.		

Section VIII – Exposure Controls/ Personal Protection					
Engineering Controls:	Avoid high dust concentration and provide ventilation where necessary.				
Personal Protection:	Personal Protection:				
Eye Protection:	Wear tight fitting goggles in dusty areas to reduce dust exposure to the eyes.				
Protective Clothing:	Wear suitable gloves when handling this product over long periods. If skin irritation occurs, wear long sleeves.				
Respiratory Protection: Wear NIOSH approved respiratory protective equipment when exposure exceeds t nuisance dust standard of 15 mg/m <sup>3</sup> or the ACGIH nuisance dust limit of 10 mg/m <sup>3</sup> eight hour time weighted average. When stored in closed area, a self-contained br apparatus is required to protect against ammonia gas.					
Other Protective Clothing or Equipment:	Facilities storing or utilizing this material should be equipped with an eyewash facility and a safety shower.				

Product Name: MAP (Monoammonium Phosphate) Page 2 of 5

Section IX – Physical and Chemical Properties			
Appearance/Color/Odor:	Odorless granular solid with color ranging from gray to green	Boiling Point:	Decomposes
Melting Point/Range:	190ºC	<b>Boiling Point Range:</b>	Not Applicable
Solubility in Water:	328 g/L @ 20°C	Vapor Pressure (mmHg):	<1 mm Hg @ 20°C
Specific Gravity:	1.8 @ 25°C	Molecular Weight:	115
Vapor Density:	Not Available	% Volatiles:	Not Available
Bulk Density:	60-64 lbs/ft <sup>3</sup> (Loose) 65-72 lbs/ft <sup>3</sup> (Tamped)	Evaporation Rate:	Not Available
pH:	4.2 in 0.2 M solution	Freezing Point:	Not Available
Viscosity:	Not Applicable	Density:	Not Available

Section X – Stability and Reactivity			
Stability:	This product is stable under normal conditions of storage, handling and use.		
Hazardous Polymerization:	Will not occur		
Conditions to Avoid:	Welding or hot work on equipment or plant which may have contained fertilizer should not be done without first washing thoroughly to remove all fertilizer.		
Materials to Avoid (Incompatibles):	Alkalis, strong acids, copper and its alloys.		
Hazardous Decomposition Products:	Ammonia is released upon reaction with strong bases or from thermal decomposition.		

Section XI – Toxicological Information			
Significant Routes of Exposure:	Eyes, Skin, Respiratory System, Digestive Tract		
-	Acute Oral Toxicity:	(Rat) OECD Guideline 425: LD <sub>50</sub> > 2,000 mg/kg bw	
	Acute Inhalation Toxicity:	No data available	
Toxicity to Animala	Acute Toxicity: Other Routes:	No data available	
Toxicity to Animals.	Acute Dermal Toxicity:	(Rat) OECD Guideline 402: $LD_{50} > 5,000 \text{ mg/kg bw}$ .	
	Repeated Dose Toxicity:	No data available	
	Eye & Skin Irritation/Corrosion:	Mild Irritant	
	Low to very low toxicity based on the standard Federal Insecticide Fungicide and Rodenticide Act (FIFRA)		
	ratings for mammals.		
	Developmental Toxicity/Teratogenicity:	No data available	
Special Remarks on	Bacterial Genetic Toxicity In-Vitro:	No data available	
Toxicity to Animals:	Gene Mutation:	NO data avaliable	
Toxicity to Ammais.	Non-Bacterial Genetic Toxicity In-Vitro:	No data available	
	Chromosomal Aberration:		
	Toxicity to Reproduction:	No data available	
	Carcinogenicity:	No data available	
Other Effects on Humans:	Phosphate compounds such as MAP are Generally Recognized As Safe (GRAS) by FDA for use as a		
Other Effects off Humans.	food additive for both human food and ruminant feed according to prescribed conditions.		
Special Remarks on	No data available		
Chronic Effects on Humans			
Special Remarks on Other	No data available		
Effects on Humans:			

Section XII – Ecological Information			
	EPA Ecological Toxicity rating :	Slightly toxic to practically non-toxic to aquatic organisms based on the Federal Insecticide Fungicide and Rodenticide Act (FIFRA) acute toxicity ratings.	
	Acute Toxicity to Fish:	(Oncorhynchus mykiss) 96-hr: $LC_{50} = > 85.9 \text{ mg/L}$	
	Chronic Toxicity to Fish:	No data available	
Ecotoxicity	Acute Toxicity to Aquatic Invertebrates:	No data available	
	Toxicity to Aquatic Plants:	No data available	
	Toxicity to Bacteria:	No data available	
	Toxicity to Soil Dwelling Organisms:	No data available	
	Toxicity to Terrestrial Plants:	No data available	
	Stability in Water:	Stable	
	Stability in Soil:	Stable	
Environmental Fate:	Transport and Distribution:	Calculated, fugacity level III: 3.98 x 10 <sup>-12</sup> to air, 45.3% to water, 54.6% to soil, 0.0755% to sediment. Phosphates, whether water or citrate soluble, are translocated in the soil only over very short periods and are then immobilized.	
Toxicity:	Inorganic phosphates have the potential to increase the growth of freshwater algae, whose eventual do reduce the available oxygen for aquatic life.		
Degradation Products:	Biodegradation:	The Phosphorus cycle is well understood. Phosphates are converted to calcium or iron/aluminum phosphates or are incorporated with the organic soil matter.	
	Photodegradation:	No data available	

## Section XIII – Disposal Considerations Product Disposal: Dispose of waste at an appropriate waste disposal facility according to applicable laws and regulations. Collect in appropriate containers. Dispose of at an appropriate waste disposal facility in accordance with current applicable laws and regulations and product characteristics at time of disposal. General Comments: None

Section XIV – Transportation Information						
	USDOT	TDG - Canada				
Proper Shipping Name:	Not regulated	Not regulated				
Hazard Class:						
Identification Number:						
Packing Group (Technical Name):						
Labeling / Placarding:						
Authorized Packaging:						
Notes:						
European Transportation:						

Section XV – Regulatory Information										
UNITED STATES: SARA Hazard Category:		This product has been reviewed according to the EPA Hazard Categories promulgated under Section 311 and 312 of the Superfund Amendment and reauthorization Act of 1986 (SARA title III) and is considered, under applicable definitions, to meet the following categories:								
		Fire: No	Pressure Generating	: No	Reactivity:	No	Acute:	Yes	Chronic:	No
		40 CFR Part 355 - Extremely Hazardous Substances:					None			
		40 CFR Part 370 - Hazardous Chemical Reporting:					Applicable			
		All intentional ingredients listed on the TSCA inventory.								
<b>SARA Title III Information:</b> This product contains the following substances subject to the reporting requirements of Title III (EPCRA) of the Superfund amendments and Reauthorization Act of 1986 and 40 CFR Part 372:								A) of		
Chemical Monoammonium Phosphate, as P <sub>2</sub> O <sub>5</sub>				Percent by Weight	CERCLA	SARA (1986) Reporting				
		lical	CAS NO.		RQ (lbs)	31	1	312	313	
		7722-76-1	52		Ye	S	Yes	No		
CERCLA/Superfund, 40 CFR Parts 117, 302:										
		WHMIS Hazard Symbol and Classification:			This product is not WHMIS controlled.					
CANADA:		Ingredient Disclosure List:			This product does not contain ingredient(s) on this list.					
		Environmental Protection:			All intentional ingredients are listed on the DSL (Domestic Substance List).					
	EINECS#:	(Monoammonium Phosphate) 231-764-5								
Cal	ifornia: Prop 65:	This is not a chemical known to cause cancer, nor is it listed.								

Section XVI – Other Information						
NFPA Hazard Ratings:	Health: 1	<b>Fire:</b> 0	Reactivity: 0	Special Hazards:		
	0 = Insignificant	1 = Slight	2 = Moderate 3 =	= High 4 = Extreme		
COMMENTS:						
Section(s) changed since last revision:	I, XII, XV
